

Please make the following changes to the Abstract:

ABSTRACT

The invention relates to mobile terminals. According to the invention, the communication terminal ~~comprises~~includes a predictive editor application for entering text. The editor is used for editing text for message handling, phonebook editing and searching, etc. The terminal further ~~comprises~~includes compression and/or decompression software. The invention further relates to a method of compressing data in a mobile terminal on which a language dependent dictionary is stored.
